

**Guidelines related to Health Sector by
H.E. Senior General Than Shwe
Chairman of the State Peace and Development Council**

The government is utilizing large sum of money in upgrading of the state and division hospitals and rural health development, opening hospitals and clinics with good will for uplift of the health standard in all States and Divisions.

All must work hard to reach the aspired goal – a peaceful, modern and developed nation – and if the people are not healthy, they will not be able to work fully.

Public participation in health must be mobilized, for health services to be effective and successful.
